## EZ StandTall™ Portable Video Wall

Portable 1x2 or 2x2 Video Wall Stand For flat displays between 32-37 Inch diagonal

The CiÊRA StandTall™ portable video wall is made of light weight anodized aluminum (column) and MDF Base. Assembles in just minutes with minimal use of (included) tools. Includes a universal VESA mounting bracket for VESA 100x100 up to 400x400. Supports for up to two optional column accessories.

The StandTall™ flat panel TV stand is 70 inches high from the top of the column to the bottom of the low profile base. Continuous vertical adjustment for perfect viewing height. The assembled stand weighs in at just 55 pounds and comes complete with three padded nylon carrying cases with shoulder strap for easy transport.

Quick and easy assembly, universal VESA bracket, light weight all with a stylish design.

**FEATURES**

- Engineered for quick setup and take-down. All necessary tools and hardware are included. Setup in less than 10 minutes
- Universal VESA mounting bracket for VESA patterns from 100x100 up to 400x400
- Total weight of stand only 55 pounds with a weight capacity of 100 pounds
- Anodized coating protects surface from scratches
- Heavy Duty compartmented carrying cases with shoulder strap for easy transport
- Six individual leveling feet provide stability on uneven surfaces
- Height adjustable to any point on the column for perfect positioning for your needs up to 70" high to center of monitor
- In-column cable management and concealment through ample channels on the back of the decorative column
